## Safety, Health, Environmental and Security Policy

It is the policy of Practical Risk Management Pty Ltd (PRM)

- to provide a safe and healthy working environment for its personnel, with a belief that all incidents can be prevented;
- to minimise the impact on the environment arising from PRM activities; and
- to incorporate security assessment and controls into the way PRM conducts its activities.

This will be achieved by:

- emphasising the safety of the public, employees and contractors as a priority in the organisation's provision of services, and striving to be incident free;
- advancing environmental awareness in the company;
- assessing safety, health, environmental and security risks in which PRM personnel are involved and by reasonably minimising those risks with appropriate prevention and mitigation measures;
- complying with applicable laws and regulations in each of the jurisdictions in which we work;
- ensuring that all personnel are competent and capable of performing their duties through adequate training and supervision;
- managing our waste streams to reduce waste generation, increase material recycling, and improving energy efficiency;
- conducting PRM activities to safety and environmental management system standards;
  - in conformity with industry and community standards and relevant legislation
  - with appropriate emergency response capabilities
- requiring that all contractors engaged by PRM comply with this policy and where necessary, to help them to achieve compliance.

This policy has been reviewed and endorsed by PRM Management which is committed to its successful operation. By accepting work with the Company, each contractor and employee accepts that he/she is responsible for the application of this policy.
